

DHI-ISC-ED0001

EAS Sunk Detacher

- Integrated magnetic steel unlocker that is durable, and prevents the easy loss of magnetic strength
- Quickly unlocks tags
- Easy to install and attach to your preferred surface

The Sunk Detacher is specially designed for the quick and easy release of tags attached to products. Designed to be durable, its built-in magnet is incredibly strong, resisting the easy loss of magnetism over time. Convenient to use, it can be installed onto a flat surface and directly used from there, or freely held in the hand.

Features

Stable Magnetism

Integrated magnetic steel unlocker, hard to lose magnetism.

Quick Unlocking

Quickly unlocks tags that are attached to products.

Easy Usage

Easy installation into counters for direct use or you can use by hand for mobility and convenience.

Scene

Suitable for scenarios that require the quick removal of tags attached to products, such as the checkout counters of supermarkets, and retail stores.

Technical Specification

Performance parameters

Magnetism Strength	≥ 10000 Gs
Casing	Aluminum alloy

General

Color	Silver
Length	75 mm ± 0.5 mm (2.95" ± 0.02")
Width	75 mm ± 0.5 mm (2.95" ± 0.02")
Height	35 mm ± 0.5 mm (1.38" ± 0.02")
Packaging	Individual package
Packaging Dimensions	77 mm × 77 mm × 55 mm (3.03" × 3.03" × 2.17")

Product Weight	0.4 kg (0.88 lb)
Minimum Order Quality	1 set

Environment

Operating Temperature	0 °C to +40 °C (+32 °F to +104 °F)
Operating Humidity	0–90% (RH) (no condensation)

Certifications

Certifications	This product conforms with RoHS Directive 2011/65/EU, 2015/863/EU and REACH regulations as defined in EC No 1907/2006 and subsequent amendments.
